### **LGS Defence- A Level Scholarship Criterion**

For over 42 years LGS Defence has provided quality education par excellence. Over the past year the world has withstood turbulent times and LGS Defence is ready as ever to face any challenges during Covid-19. We are better placed today more than ever and continue with our mission to provide prospective students to avail all the opportunities we have to offer.

Taking family needs into consideration, we remain flexible and uphold our A Level scholarship policy for the upcoming academic session 2021-2022. The A Level Scholarship will resonate merit (academic and special talent), financial aid, and need-based awards so that our students can acquire quality education at a premier institute like LGS Defence. We want Grammarians to benefit from the school's educational, co-curricular and leadership programs, regardless of their financial means.

We look forward to welcoming exceptional young men and women to join the LGS Defence community for the new academic session 2021-2022.
